Recent CS grad with project and open-source experience across full-stack development, data pipelines, and frontend engineering, comfortable picking up new tools and contributing to collaborative codebases quickly.

EDUCATION

University of California, Irvine

Graduated Sept 2025

B.S. in Computer Science, Minor in Digital Arts

Google Data Analytics Certificate (In Progress)

May 2026 - Present

TECHNICAL SKILLS

Languages: Python, HTML, CSS, JavaScript, Typescript, PostgreSQL, C++

Software & Additional Skills: Git, ReactJS, Next.js, Figma, Jira, Agile / Scrum, REST API, LLM APIs, Google Sheets

PROJECTS

StudySpotter

Jan 2026 - Present

Software Engineer Volunteer | Remote | [Webapp](#)

- Develop a full-stack Next.js web app using a PostgreSQL database, surfacing AI-extracted study insights for cafes across multiple cities
- Build a data ingestion pipeline in Next.js that parses Google Maps URLs, retrieves structured location data via the Google Places API, and scales review collection from 5 to 50 reviews per place using Apify
- Leverage Google's Gemini API to establish an AI data pipeline with a labeling workflow by analyzing scraped review text and generating structured, labeled data insights (e.g. WiFi quality, noise levels, seating) for over 30 cafes and counting

KPFF Blueprints to Insights

Jan 2025 - Jun 2025

Student Frontend Developer | Irvine, CA | [Demo](#)

- Built UI components enabling manual validation of AI blueprint analysis, improving output accuracy of structured data and supporting quality control workflows
- Engineered a ReactJS front-end with FastAPI and OpenAI, reducing building specification review time by ~99% (from 10 min/sheet to 12 min/100 sheets)

WORK EXPERIENCE

Hack for LA

Apr 2026 - Present

Software Engineer Volunteer | Remote | [Website](#)

- Contributed across the full stack, from UI bug fixes to GitHub Actions DevOps, resolving 9+ issues and PRs in a collaborative open-source environment
- Review pull requests from peers of varied skill levels, with consistent standards to catch errors and maintain code quality

UC Irvine School of Social Ecology Dean's Office

Sep 2024 - Jun 2025

Student Assistant | Irvine, CA

- Maintained accurate access control records and managed faculty scheduling, resolving issues with high attention to detail
- Handled front-office operations such as scheduling, records management, and designed promotional material in Canva
